

Hoists

Taylor's Hoists, a division of Elliott Thomas, specialises in the hire, sales, operation and maintenance of construction hoists.

The company provides the all-new fully modular Scando 650 hoist from Alimak for guaranteed on site performance, durability and lifting capacity. A modular system, it can be easily adapted according to the application whilst offering lower energy consumption and reduced operational costs. Available in single or twin car configuration:

Specification: Scando 650 Modular System

Triple motor machinery incl. VFC-PANEL (75kW). Weight 890kg

Vertical exit door in two parts, weight 133kg

Vertical full height entrance door, weight 155kg

3.5m car base structure incl. safety railings (100kg) weight 1200kg

Closed, solid wall on exit side, weight 55kg

Additional section to increase car length 0.35m in one or two sides (0.35 + 0.35m). Weight 90kg each.

Exit door combined with optional electric/hydraulic operated load ramp. Weight 280kg. Add 147kg when changed from standard exit door.
